Possible topics for discussion below.. hopefully the A1 PRP thing gets resolved today; and not sure how far we'll get on a GLEC agenda by next week.

And still waiting for Mike's availability from his EA Apr 12 & 13.

- Progress Report of Parties – timelines/approvals/other
- Great Lakes Public Forum - flow for Forum (new agenda), possibly discuss "Celebrating Day"
- Mtg with science annex leads re open data - Susan's (Cam's) interest in advancing this work; opportunity for L Erie pilot
- CMC approval status
- Notification (TBD)
- Other - *Future monthly MG-CD teleconferences?*

I'm trying to anticipate the needs for internal briefing.... Any thoughts on what the main things would be that Mike would talk with Cam about?

My sense the big pending issue for GLEC is agenda... and Triennial is, well, the same thing except that's further along and we have Canada's proposal.
